

IC MINI/8 SUB

The InCeiling Mini/8 Sub is yet another innovative solution for integrating bass into a room with minimal physical impact. A long-throw 8" driver in a compact enclosure flush-mounts cleanly into almost any ceiling, including those with narrow 12" on-center joists.

Now you can have bass any place, and without bulky black boxes cluttering the floor. To further enhance your options, we've designed the InCeiling Mini/8 Sub so you can use two of them with a single Triad RackAmp, for greater value and more output. Multiple InCeiling Mini/8 Subs can be used with great results in rooms where the aesthetics prohibit any visible subwoofers, yet a forceful home theater experience is desired. Although multiple Mini/8 Subs may be used for home theater, other applications utilizing a single sub may be used in dens, bedrooms, or offices.

The addition of a sub in a secondary listening location is a must, adding fullness and warmth at low volume, and rendering impact and dynamics when played loudly. The InCeiling Mini/8 Sub is available in two configurations; single enclosure with 350 watt amp, and dual enclosures with a single 350 watt amp. And as with all Triad speakers, custom paint matching of the AcoustiPerf grill is available and your InCeiling Mini/8 Sub, like all Triad speakers, will be built to order especially for you.

 - Adjustable Off Delay
- Optimize multiple subs for best performance
 - Input Gain matches levels.
 - Delay time aligns subs together for better impact

Enclosure

Fully engineered, Premium MDF enclosure.
Acoustic Suspension.
Powered subwoofer.

Finishes

Triad's Basic & Custom Finishes are available for this product. The standard finish for this product is White paint. For any other colors, please refer to Triad's Custom Match Finish program for this product. The paint we use is a top quality enamel and is applied with a light pebble finish.

Since all computer monitors and their colors vary, the digital color you see here will be different from the actual product finish.
